THINK OUTSIDE THE BOX

A HIGH-PERFORMANCE, AFFORDABLE COMMUNITY ARENA IS POSSIBLE!

At Sprung Structures, we know how valuable a dedicated place for community members to connect, play sports, and gather together is. We also understand that building such a place is no easy undertaking for a small community.

We have been building innovative solutions worldwide for over 130 years where industries, communities and institutions need them most. Our structures are timeless, affordable and made 30 - 60 percent faster than conventional buildings.

With Stantec, an award winning architecture and engineering firm and CANA, construction leaders with over seven decades in the industry, we are proud to offer three affordable arena solutions for rural communities.

With a Sprung Community Arena Package, we manage the planning, construction, and logistics. Aligned with financial leaders in community development, we can also support communities with the best financing options available.

FINANCING - *In addition to the alliance of Stantec, Sprung and CANA, we have aligned with one of Canada's largest financial institutions to provide financing options that work best for your community.*

1

THREE COMMUNITY ARENA SOLUTIONS

SINGLE ARENA

This all-inclusive package provides your community with an athletic and event space that can be used all year round; ice in during hockey season or ice out for sporting and community events.

3

THREE COMMUNITY ARENA SOLUTIONS

PRACTICE ARENA

The Community Practice Arena is similar to the Single Arena just without bleacher seating. This package is the perfect solution for community athletic teams to practice locally and provides an ideal space for sporting and community events year round.

BUILD TIME: APPROX. NINE MONTHS

FEATURES

- Four dressing rooms
- Mezzanine viewing area
- First-aid room
- Party room
- Concession area
- Skate shop
- Admin offices
- NHL quality ice surface
- Energy efficient
- Ice system refrigeration
- Player, penalty & score-keeping boxes
- Netting on rink-ends
- Ice system mechanical

PROJECT TEAM

The Sprung Community Arena packages are designed by the best in the business to provide the ultimate solution to rural communities when it comes to a place to gather, celebrate and connect.

STANTEC is an award winning architecture and engineering firm. Their local strength, knowledge, and relationships, coupled with world-class expertise, allows them to go anywhere to meet their clients' needs in more creative and personalized ways. With a long-term commitment to the people and places they serve, Stantec has the unique ability to connect to projects on a personal level and advance the quality of life in communities across the globe. www.stantec.com

SPRUNG has revolutionized the construction industry with its patented stressed membrane structures engineered to accommodate the need for enclosed space quickly and economically.

Sprung Group of Companies celebrates over 133 years of innovation and customer service. There are currently more than 12,000 Sprung structures in every market sector around the world. www.sprung.com

CANA is a family-owned company and has been a respected and trusted service provider in Alberta for over 78 years. Over those years, they have developed a reputation for delivering projects safely, on budget and on schedule.

CANA provides quality design and construction strategies and solutions to their clients using a think-straight, talk-straight, do-it-right-once approach with no surprises. www.cana.ca
